

Community Advocates for Racial Equity (CARE)

RIAIMH is committed to creating a space where we can explore diversity, equity, inclusion, belonging (DEIB) and anti-racism so that we can become anchors within our communities. The goal is to engage in courageous conversation and skill-building around DEIB and anti-racism that leads us deepen self-awareness, identify, and speak up when challenged with racial injustice, take action to be anchors/advocates within our communities. Participants in the CARE Foundations 2024 groups will learn together and gain skills to integrate DEIB principles and practices into their work with colleagues and the community. Together, we'll build a more inclusive environment for the workforce and families in our home and community-based services. We hope you will join us on this journey to deepen knowledge and self-awareness to “do better” as we serve infants, young children, and families in RI.

YOU ARE INVITED TO JOIN OUR CARE FOUNDATIONS 2024 GROUP!
